

The Housewife's Health Is Precious

The happiness of the whole family depends greatly on the health and strength of the housewife. If she is weak and worn out, fretful and nervous she cannot be the wise and patient adviser of her children, the congenial companion of her husband, the calm mistress of her many trying household duties that she was when in perfect health.

Stearns' Wine of Cod Liver Extract

the peerless tonic and appetizer which is so pleasant to the taste that it agrees with the most delicate stomach, yet is certain in its strength-renewing and body building effects. It has not even the faintest taste of cod liver oil, and millions of people in all parts of the world unite in praising its value as a restorer of health and vigor. Get it at your druggists and be sure you get STEARNS'—the genuine.

DE LAVAL CREAM SEPARATORS

The World's Standard Used Exclusively by 98% of World's Creameries

Ten years ago there were a dozen different makes of creamery or factory separators in use. To-day over 98 per cent of the world's creameries use De Laval separators exclusively.

When it comes to buying a separator why not profit by the experience of the creameryman, which qualifies him to advise you correctly.

He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries use the De Laval exclusively.

There can be no better recommendation for the De Laval than the fact that the men who make the separation of milk a business use the De Laval to the practical exclusion of all other makes. They know from experience.

JAPANESE IN HAWAII

(Continued from Page Nine.) merely meaner and deadlier. The very basis of Christianity demands the absolute admission of this proposition,—namely that humanity was endowed with the capabilities of brotherhood. And the Man, who was God, leads the way to its consummation and expects the aid of His followers. A Few of the Elements Necessary in Bringing This to Pass.

1. As far as the Japanese are concerned it means first, higher wages on the plantations and better houses for the present. It is clear that no adequate wage has been given to labor, even though prices paid for sugar should drop very much lower than they have been of late. While admitting that plantation managements have made wonderful strides in the improvements in the housing of labor, and admitting even that labor is better housed and paid than under any similar conditions in the world, (which the writer firmly believes) there is yet room for improvement.

2. There should be opportunity afforded for ownership of land in connection with the sugar industry, or, as a partial substitute for this—the most desirable status,—profit sharing. This has been in operation on some of the plantations with some success. The laborers have probably failed to take up the opportunities offered in this line, fearing the ordinary risk of the crop falling short. In general, where there is no capital, there is much timidity concerning risks.

Of course, it is admitted that this change in the status of the sugar industry must be gradual, or capital (the proverbial goose that lays the golden egg) will suffer. It is neither fair nor economically wise that capital should be endangered by sudden and radical changes. No attempt will be made in view of the limitations of this paper, to specify details of a land, or profit-sharing policy. Our sugar men are well able to cope with this problem, when they want to do so.

3. Another element in bringing about this fusion of people will be the educative one. Whereas the territory officers have made big efforts to accommodate all the children and the claim has been hitherto recorded that all desiring school privileges can have them, still it must be frankly admitted that the accommodations are very inadequate and the appropriations are altogether too small both for school buildings and teachers. Certain private schools, notably the Mid-Pacific Institute, have gone into special efforts to meet the need of the ambitious company of Oriental boys and girls. They will want more than an ordinary elementary school training and they ought to have it. Nay, some of us are determined that they will have it,—the best that the islands can afford. And we hope to bind them to us by ties of friendship which no shock of war or industrial cataclysm can disturb. Already in a peace movement which is known on two continents, five of the brightest students of Japan are seated among their island born brethren, getting the best inspiration that American school life can give them. It is expected and urged that other attempts of this kind will be fostered.

4. In view of what has been said in the foregoing paragraphs, not much further comment need be made as to the religious possibilities in the islands. A prominent business man of the western coast once said to the writer that he didn't know much about missions, but if he were to invest money in missionary projects concerning Japan and China, he would do it in Hawaii. His point was that when a people have severed themselves from old environment and have come to a new country with open minds to see and take in the best which that new country can afford, they are in far better position to drink in the religious quick results.

truths which that country has to offer. A prominent religious leader is said to have exclaimed on the floor of a great assembly, "If you can not bring the Chinese and Japanese to a personal loyalty to the Lord Christ in Hawaii, it is perfectly futile to send missionaries to China and Japan." Ay, the burden upon the Christian citizenship of Hawaii is enormous and if it falls, which God forbid, its failure is abysmal. The future looks bright for a new order of things in Hawaii. (The End.)

MR. AND MRS. W. E. CARTER, THEIR SON AND DAUGHTER, ARE TITANIC SURVIVORS.

MR. AND MRS. W. E. CARTER.

PHILADELPHIA, April 19.—William E. Carter, Mrs. Carter, their daughter Lucile and their son, W. E. Carter, Jr., all were saved in the Titanic disaster. The Carter family was aboard the Carpathia, which brought the survivors to New York, and they returned to this city on a special train. In the early reports of the rescued there appeared doubt as to Mr. Carter being among the saved, and considerable alarm was felt for a time among the relatives and friends of the Carters. Mrs. William E. Carter, mother of William E. Carter, fainted when she recognized the voice of her son over the telephone from New York.

Morning Cable Report

(Continued from Page One.)

LOS ANGELES, May 10.—Secretary of State Knox addressed an enormous crowd here last night and made a heated attack upon Colonel Roosevelt. At every mention of the Rough Rider's name the crowd cheered. "Mr. Roosevelt," said Mr. Knox, "is prompted in this fight of his for nomination and re-election to the presidency by the vainest of imperious and ambitious motives. He wants to rule, but he cannot. He is a man of whims and mysterious antipathies which cannot be fathomed because they are baseless."

STOCKTON, Cal., May 10.—Governor Johnson last night addressed a large crowd here and bitterly attacked Senator La Follette. He was answered by hostile cheers.

SACRAMENTO, Cal., May 10.—It was announced here last night by the Taft leaders that Taftite candidates for the Chicago convention will not be pledged to Taft even if elected. No reason is given for this stand.

BERMILLO, Mexico, May 10.—The vanguard of General Orozco's column of rebels came into close touch with the vanguard of the federal troops late last night, near this city. Shots were fired and the advance retreated upon the main body.

EAGLE PASS, Texas, May 10.—Four hundred federal troops broke into open revolt near here last night. They were disarmed after a struggle.

SAN FRANCISCO, May 10.—The first carload of electrolytic iron from the Shasta county mines was shipped to Salt Lake City yesterday afternoon. This marks a new mining departure for the state.

LONDON, May 10.—The Home Rule bill, introduced by the administration, last night passed its second reading in the House of Commons. The attacks upon the bill have been most bitter, even among the Irish members.

BY AUTHORITY

Sealed proposals will be received by the Loan Fund Commission of the City and County of Honolulu up to Twelve O'clock Noon of Saturday, May 18, 1912, for the construction of Twenty-Six Thousand, Three Hundred Fifty-Eight and Seven Tenths (26,358.7) linear feet of highway designated as Section One of the Oahu Belt Road, and extending from the North end of the Heala Rice Fields to the Water-hole Bridge, in the District of Koolau, City and County of Honolulu. Proposals shall be on forms furnished by the Commission.

Each bidder shall state in his proposal: (1) A specific sum for which he will furnish all labor, tools and materials, except as specified to be furnished by the City and County of Honolulu, necessary to complete the work in accordance with the plans and specifications.

(2) The date upon which he will agree to have the work completed. The Commission, in determining which bid is the lowest will consider the difference in time of promised completion stated in the bids at the rate of Twenty Dollars (\$20.00) for each day.

Proposals shall be in a sealed envelope addressed to T. H. Peirle, Secretary of the Loan Fund Commission, City and County of Honolulu, Room 61 Young Building, Honolulu, and plainly marked on the outside "Proposal for the Construction of Section 1, Oahu Belt Road."

All proposals shall be accompanied by a certified check for a sum equal to five per cent (5%) of the tender.

Plans, specifications and forms of tenders can be had on application to the Engineer of the Commission, H. Stuart Johnson, Room 61 Young Building, Honolulu.

A deposit of Ten Dollars (\$10.00) will be required on each set of plans and specifications taken.
